## Process

## SVALNER ATLAS GROUP

**For importers** Cost efficient reporting enables free selection of suppliers and continued imports – even concerning small amounts – of CBAM-goods. Easy access to portal for in house functions/ stakeholders and external consultants enables seamless working processes. Legal advice within tax, customs and international trade compliance as part of Svalner Atlas Group general offer.

**For operators** BAMTool freely open to all suppliers outside EU for delivering generic emission/ production data and calculation of emissions enables shorter upstart when exporting to new EU customers.

**Complete compliance** All CBAM reporting obligations are covered by BAMTool.

- Highly automated creation of CBAM-reports.
- Automatic validation and control of provided data to ensure correct reporting.
- Automatic storage of relevant data to ensure compliance with obligations to keep records, with possibility to retrieve and present for CBAM or other purposes.

---

**Effective**  
Drag and drop submission of data  
+ intuitive and user-friendly portal  
navigation for Operators outside EU

**Automated**  
BAMTool produces notifications and  
reports with minimum manual handling

**Compliant**
